Cemetery Department

The second year's cemetery improvement efforts have been marked by considerable progress, and some disappointments. The latter mainly due to difficulties in getting work done.

The East Sandwich Meetinghouse and Cemetery Association (Vittum Hill) may justly be proud of the appearance of this cemetery since the completion of resurfacing and other improvements.

At Little's Pond Cemetery authorization to complete work already begun was delayed owing to Mrs. Moorhouse's death. Early snow prevented carrying out this project, but the money is in hand for it, and plans made for work in the spring.

On three Maple Ridge Cemeteries, brush-cutting, resetting of stones, mending of fances and walls has been done.

Maintenance and improvement work has been done on the Chick's Corner, George, Grove, Mcars, Quaker (Center Sandwich), Hubbard and Thompson Cemeteries.

The Rural and North Sandwich cemeteries have been maintained in a commendable condition by the Associations organized to care for them and it is hoped that an organization may be formed for the Grove Cemetery this year.

Funds from interest accruals on the Charles H. White Trust being available for work on the Elm Hill Cemetery, nearly half of this burying ground has been resurfaced and seeded, and only early snow prevented the completion of this work. We expect to finish it in the spring.

Labor shortage prevented clearing several wooded plots in East Sandwich and elsewhere. During 1943 we are hopeful of accomplishments beyond those aforementioned, but present uncertainties make future predictions unwise.

REPORT OF SUPERINTENDENT OF SCHOOLS

Schools in War Time

More and more, the impact of wartime conditions is making itself felt in the lives of our children. Although we may work earnestly to provide the normal conditions of work, play, and growth to which childhood is entitled, it is increasingly difficult to do so.

Your teachers and superintendent are called on to devote many hours to duties quite apart from the job you are paying them to do. The rationing of food and fuel oil, and the sale of war stamps and bonds, represent only a part of our duty to Uncle Sam and the boys in the service. In order to save gasoline and tires, it has been necessary to check over with care all the school bus routes, as a part of a national survey. These routes have been combined in some cases, and frequently children are required to walk part way between home and school. Lack of transportation has also obliged us to curtail teachers' meetings for the duration.

Some benefits to children, however, may develop out of the war emergency. An increased emphasis on health and physical education is one of the important advantages. Many teachers have availed themselves of the First Aid courses conducted by the Red Cross. Much attention is being given to the matter of nutrition of growing children, and school lunches are provided in many schools throughout the country. Special efforts are being made to interest children in gardening under the "Food for Freedom" campaign. Such things as these ought not to have to wait until a war comes; and it may prove worth while to continue them after the conflict is over.

Practical aspects of education, especially as related to war service, are emphasized, particularly in the high school. The progress of aviation demands more emphasis on mathematics, mechanical skills, study of weather conditions, and principles of flight. A new slant on geography has been developed; the distance between two cities may now be measured as a straight line, even though a a range of mountains may lie between them.

School costs shot upward rapidly during the course of the first World War in 1917 and 1918. The teacher shortage is definitely more serious now than it was then, and the high wages now paid for various types of war work are influencing the trend of teachers' salaries today. No one can foretell with accuracy what the prevailing rate of

increase may be for next year, but it takes no prophetic insight to forecast some increase in the salary schedules of teachers in general throughout the State.

Respectfully submitted,

ALMON W. BUSHNELL.

SCHOOL NURSE'S REPORT

A report of the Health Work done in the Sandwich schools the past year.

School visits, 131; pupils inspected, 130.

All of the pupils at Quimby, Village and the rural schools have been weighed and measured several times. Vision tests were taken. Inspection of individual children when necessary.

Dr. Robert Quinby did a complete physical examination on 131 pupils. Results of examinations: Defective vision, 18 (16 wearing glasses); defective teeth, 44; enlarged tonsils, 28.

A successful dental clinic was held last spring. Dr. Pottle and Dr. Denault of Meredith did the work at special rate. A summary of the clinic shows that 34 pupils were treated, with a total of 140 operations. A similar clinic is being planned for this spring.

Three children have had their eyes tested and obtained glasses.

Three children had tonsillectomies.

One child was accompanied to the Balch Hospital.

I wish to express my appreciation for the cooperation of the Superintendent, members of the School Board, teachers, parents and officers of the Red Cross Association.

Respectfully submitted,

EVA A. HENEY, R.N.
